**Title 19/21 Non-SMI & Non-Title 19/21 SMI  
Behavioral Health Drug List**

Updated 04/01/2024

## **What is the Mercy Care Formulary?**

This is a drug list created by Mercy Care. The plan will cover drugs on this list. Some drugs may have coverage rules. If the rules for that drug are met, the plan will cover the drug. Drugs must also be filled at a plan network pharmacy.

## **Can the Plan's Drug List change?**

The plan may add or remove drugs on the list. All drug removals from the formulary will be sent to the state for review before the change is made. Utilizing members and their providers will be notified at least 30 days before a drug is removed from the formulary. All changes to the formulary will be posted on the plan's website.

## **How do I use the Plan's Formulary?**

- **Column #1:** lists the covered drug. Brand drugs are in upper case letters (e.g., DRUG). Generics are in lower case letters (e.g., drug).
- **Column #2:** shows brand drug for the generic; *brand drugs are not covered if generic equivalent is available.*
- **Column #3:** tells you if drug has a need for prior authorization or other restrictions

Drugs are also grouped by drug class. If you know what class your drug is in, please look for that class name in the table of contents. Then look under that page for your drug.

## **What are generic drugs?**

The plan covers both brand and generic drugs. Generic drugs cost less and are approved by the Food and Drug Administration (FDA).

## **Are Over-The-Counter (OTC) drugs covered?**

The plan will cover OTC drugs on the formulary. Some OTC drugs may have coverage rules. If the rules for that OTC drug are met, the plan will cover the OTC drug. Like other drugs, OTC drugs need a prescription from a doctor if they are to be covered by the plan.

## **Are there Medication Copays?**

Refer to member handbook for copay information.

### **What are some types of coverage rules?**

- **Prior Approval (PA):** This means your doctor will need to get approval from the plan first before the drug can be filled at the pharmacy. If it is not approved, the plan will not cover the drug.
- **Quantity Level Limits (QLL):** This means there is a limit on the amount of drug the plan will cover. For example, the plan provides 60 pills in 30 days for some drugs.
- **Step Therapy (ST):** This means you may need to try certain drugs first to treat your condition. After the first drug is tried, the plan will then cover the other drug for that same condition. For example, Drug A and Drug B may treat your condition. The plan may not cover Drug B unless you try Drug A first. If Drug A does not work for you, then Drug B will be covered.

### **What if my drug is not on the plan's Formulary?**

First, please call your doctor and ask if your drug is covered. If the plan does not cover the drug, then:

- Ask your doctor for a similar drug that is covered.
- Your doctor can ask the plan to cover your drug through the prior approval process.

F	Formulary
AL	<p>Age Restriction: We require that the appropriate dose of medication based on age (e.g., pediatric and elderly populations) and indication AND dosage requested must be based on national established/recognized guidelines pertaining to the treatment and management of the diagnosis and age for which the medication is being used to treat. OR FDA-approved age limitations.</p> <p>Click this symbol  on the <a href="#">online search tool</a> for more information.</p>
Names in <i>Italics</i>	Generic Drug - We cover both brand and generic drugs. Generic drugs have the same active ingredient formula as a brand name drug. Generic drugs usually cost less than brand name drugs and are rated by the Food and Drug Administration (FDA) to be as safe and effective as brand name drugs.
PA	This means your doctor will need to get approval from us first before the drug can be filled at the pharmacy. If it is not approved, we will not cover the drug.
QLL	This means there is a limit on the amount of drug we will cover. For example, we provide 60 pills in 30 days for some drugs.
ST	This means you may need to try certain drugs first to treat your condition. After the first drug is tried, we will then cover the other drug for that same condition. For example, Drug A and Drug B may treat your condition. We may not cover Drug B unless you try Drug A first. If Drug A does not work for you, then Drug B will be covered.
