

## Provider communication

*General information and system updates*

October 23, 2023

### **Division of Developmental Disabilities Behavioral Health Conference Survey**

#### **Applicable to: Mercy Care DD**

The Division of Developmental Disabilities has requested that we send the below notification to our provider network.

The Division of Developmental Disabilities (DDD/the Division) has collaborated with its subcontracted health plans, UnitedHealthcare Community Plan and Mercy Care, to utilize American Rescue Plan Act (ARPA) funding to enhance training available to behavioral health agency clinical staff. The training focuses on best practices for working with individuals who have both a developmental disability and a behavioral health diagnosis.

The Division is going to offer a two 2-day conferences for Behavioral Health provider agency clinical staff; one in April of 2024 in Pima County and one in September of 2024 in Maricopa County. We are looking for volunteers to participate in a Conference Planning Committee. The time commitment will be approximately 2 hours per week over the course of the next 5 months. Meetings will be virtual, via Google Meets. We are also interested in receiving your input on conference topics that you feel would be beneficial in serving individuals diagnosed with a behavioral health condition as well as a developmental disability.

**Please complete the survey below, regarding your interest in joining the Conference Planning Committee (select the days and times you are interested in participating) and provide your opinion regarding training topics to be offered at the conference.**

Feel free to share this survey with anyone who may be interested in providing input or participating in the committee. Survey responses are due by November 3, 2023.
